

FLYERS CAN NOT HAVE A FULL BLEED

The Flyer offering requires a .15" white border on all four sides.
Nothing in this red area will be printed.

The grey area is the size of your printed piece after it has been trimmed.

This sample document is setup as an 8.5x11 (letter) sized sheet.

You may choose to print any sized piece up to 11x17.

Do not put a box on the page to show the size of your brochure. Instead, include crop marks on all four corners to show us where to cut your printed piece.

If your software does not do this for you, make the page size large enough to make room for crop marks and bleed.
