SMARTPRESS

A1 ENVELOPE

Finished Product Size: 5.125"W x 3.625"H

Addressing Area

SAFE MARGIN: Your file needs to include a 0.25" safe margin necessary for production. Safe margin is the area around the edge of the sheet. If the safe margin is not included in document setup, there is a chance that the art close to the edge will get cut off, due to machine shift during cutting. This happens because there is a tolerance when cutting the printed piece. For more information on Cutting Tolerance, visit our website: support.smartpress.com/print-file-preparation/cutting-tolerance

CUT LINE (FINISHED SIZE): This is where your artwork will be trimmed.

BLEED: We are unable to have artwork bleed on envelopes.

BARCODE: The Intelligent Mail barcode is about 2.625" and can be included in the address block if there is at least 3.5" of horizontal space available in the address area. If the barcode is not included in the address block, it will be placed across the bottom of the card toward the right side corner.
