

DESK CALENDAR

Finished Product Size: 6"W x 3.75"H

BLEED: Your file needs to include a 0.125" bleed necessary for production. Bleed is printing that goes beyond the edge of the sheet after trimming. If a bleed is not included in document setup, there is a good chance there will be a gap between the edge of the printed area and the cut line. This happens because there is a tolerance when cutting the printed piece. For more information on the importance of bleed, visit our website: smartpress.com/support/printing-basics/bleeds-borders.

CUT LINE (FINISHED SIZE): This is where your artwork will be trimmed.

SAFE MARGIN: Your file needs to include a 0.5" safe margin on the coil side and 0.25" safe margin on all other sides necessary for production. Safe margin is the area around the edge of the sheet. If the safe margin is not included in document setup, there is a chance that the art close to the edge will get cut off, due to machine shift during cutting. This happens because there is a tolerance when cutting the printed piece. For more information on cutting tolerance, visit our website: smartpress.com/support/printing-basics/cutting-tolerance.

COIL: Avoid placing text or elements near the coil.

A calendar page for June 2025. The page features a decorative top border with a row of 18 red square icons, each containing a white vertical line. The main content is enclosed in a green border. On the left, a grey rectangular area contains the text "PHOTO GOES HERE" in bold black letters. To the right, the month "JUN" is written in large, bold black letters, and the year "2025" is written in a large, outlined font. Below the month and year is a calendar grid with days of the week as column headers and dates as row entries. The dates 1 through 30 are shown in black, while the dates 1 through 5 of the following month are shown in grey.
