SMARTPRESS

SADDLE STITCH CALENDAR
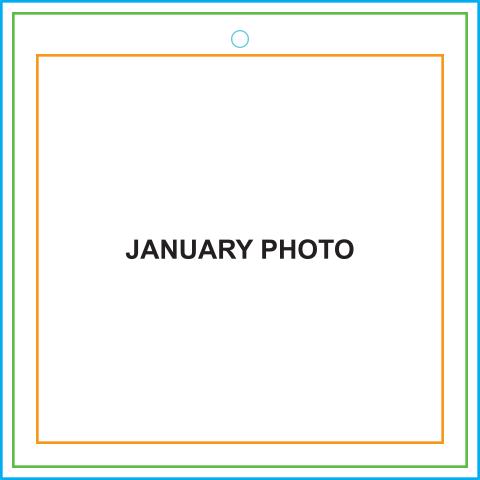

Finished Product Size: 4.75"W x 4.75"H

BLEED: **Your file needs to include a 0.125" bleed necessary for production.** Bleed is printing that goes beyond the edge of the sheet after trimming. If a bleed is not included in document setup, there is a good chance there will be a gap between the edge of the printed area and the cut line. This happens because there is a tolerance when cutting the printed piece. For more information on the importance of bleed, visit our website: smartpress.com/support/printing-basics/bleeds-borders.

**CUT LINE (FINISHED SIZE):** **This is where your artwork will be trimmed.**

SAFE MARGIN: **Your file needs to include a 0.375" safe margin on the side with the drill hole and 0.25" safe margin on all other sides necessary for production.** Safe margin is the area around the edge of the sheet. If the safe margin is not included in document setup, there is a chance that the art close to the edge will get cut off, due to machine shift during cutting. This happens because there is a tolerance when cutting the printed piece. For more information on cutting tolerance, visit our website: smartpress.com/support/printing-basics/cutting-tolerance.

DRILL HOLE: **Avoid placing text or elements around the drill hole.**
