

STEP AND REPEAT BANNER

Finished Product Size: 111"W by 95"H

HOW TO SET UP A STEP AND REPEAT BANNER: For design recommendations and simple set-up steps, visit our website: https://smartpress.com/support/printing-basics/step-and-repeat-banners

SAFE MARGIN: Your file needs to include a 1" safe margin on the left and right side necessary for production. Safe margin is the area around the edge of the sheet. If the safe margin is not included in document setup, there is a chance that the art close to the edge will get cut off due to machine shift during cutting. This happens because there is a tolerance when cutting the printed piece. For information on how to account for cutting on your print file, visit our website: https://smartpress.com/support/printing-basics/cutting-tolerance

HEM STITCHES: Your file needs to include a 3" hem stitch on the top and bottom necessary for the pole pockets. If you do not want your logo to be on the stitches, please make sure it is 1" below.

CUT LINE (FINISHED SIZE): This is where your artwork will be trimmed.

BLEED: Your file needs to include a 0.25" bleed necessary for production. Bleed is printing that goes beyond the edge of the sheet after trimming. If a bleed is not included in document setup, there is a good chance there will be a gap between the edge of the printed area and the cut line. This happens because there is a tolerance when cutting the printed piece. For more information on the importance of bleed, visit our website: https://smartpress.com/support/printing-basics/bleeds-borders
